

# Charity Token

Charity Guide

# What is Charity Token?

Charity Token is an Australian Web3 start-up that aims to create unfathomable efficient fundraising through the use of specially developed blockchain platforms.

Rewarding the Community instead of middlemen is how we will build a united and loyal donor base of frequent giving. Tokens will revolutionize Charity and you'll see it here first!

# How does it work?

## Step 1.

## Step 2.

Step 1

### NFP onboarding Application

Not for Profit Organization Name

Registered Charity/Not for Profit Member Numbe

Organization/Company Registered number

Website

Choose Category

Description

Only .jpg and .png files are allowed.  
Max size is 5MB

I read the disclaimer

Next

Fill in the minor details. These are mostly public details and helps us verify your Charity status efficiently.

These details are unmodified when added to the database so please ensure correctness.

### Step 3.

Once approved...  
Download our Charity Token  
Mobile app from the Play Store.

A pc version will be available in  
the coming months.

### Step 4.

Sign up using the email and  
password you provided in the  
application. This is how our  
platform recognizes your  
Charity account.

**\* check your junk folder for our  
verification email**

# Dashboard

Main Account -  
This is the account that  
can be used to  
withdraw or send  
tokens from.

Total Balances in  
Token amount

Donation Box One -  
This will accrue tokens  
donated directly from  
your profile

**Withdraw the tokens  
from donation boxes  
FIRST. Then you can  
send the total from  
your main account, to  
a cryptocurrency  
exchange.**

**Donors and other  
retail users will NOT  
have access to digital  
donation boxes.**

Donation Box Two -  
This will accrue tokens  
that are passively earned  
by user transactions.

## Non Profit Database

This is our Library. It is the main feature and the basis of our design. It is here your Charity profile will be displayed.

**\*Make sure to check your Organisation category as this is how you will be filtered.**

Donors can see a wealth of information on each Charity profile including;

- Name, Location
- Date joined
- Total contributions
- Bio, Contact details
- Any documentation
- Donate button

## Claiming Funds

Think of tokens like any other currency. Your bank won't accept Matic as currency, so you need to swap the tokens and send them to an exchange first.

Once you have all of the tokens in your main account. Swap all of the CHAT tokens for Matic tokens.

Matic tokens are widely accepted and have no fees for sending ASIDE from the network transaction fee.

Simply copy your Polygon wallet address from your trusted exchange and click "transfer".

Funds will be on your exchange account within 15 minutes usually.

## Rewards for everyone

For holding Charity Tokens in the wallet, you automatically earn more tokens each time a concurrent transaction happens on the network in ChaT.

Charities earn Matic and Chat tokens EVERY time a transaction happens on the network.

Hold Charity Tokens to earn even more tokens!

## Transaction fees

Every transaction on a public blockchain requires a fee paid to the network, in our case to the polygon network paid in Matic. We call this fee "gas". This is customary in defi and each network has their own fee structure.

The amount charged varies according to network demand. If the network has a lot of concurrent transactions than the fees are slightly higher than when it is quiet. Fees vary from between 0.005 to 0.02 of a Matic token on average and usually equates to under 5c USD.

As you will receive small amounts of Matic on an ongoing basis as part of our fee structure, Charities should always have enough Matic to transact.

But it is important to note ,NEVER remove ALL of the Matic as you will need "gas" for future transactions. We advise to leave approximately 1 Matic token in your wallet, to ensure you can transact in the future. In the event there is zero Matic available, you will have to wait for donations of Matic or transfer some back into the wallet.

# Charity Token

Chris and Aleigha Manski are founders and operators of Charity Token Pty Ltd. They are working towards an efficient and inclusive future in Charity payment infrastructure and fundraising.

They have created a foundation to create the largest global fundraising network ever! Blockchain has the potential to disrupt every industry, including Charity.
